

## LEAD CUT - BENDING - BEADING

As of now we can offer a new service, namely

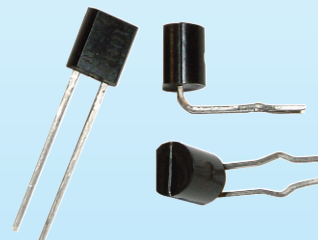

### LEADCUT - BENDING - BEADING

of radial wire lead components like Quartz Crystals, Capacitors, LEDs, Silicon Sensors, Radial Resistors, and so on. Our lead-forming-machines EBSOMAT and BURST & ZICK are suitable to have different tools added and offers a variety of leadforming possibilities of said components.

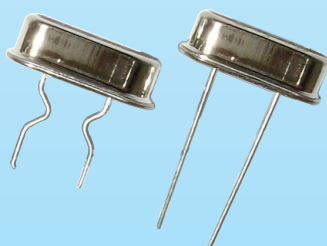

■ **Beading and Bending** of radial components

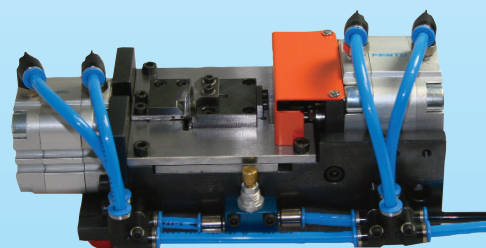

**EBSOMAT**

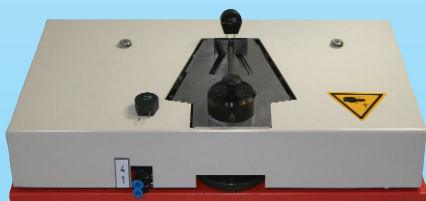

■ **Bending and Lead cut:** re-preparation from radial to SMD components

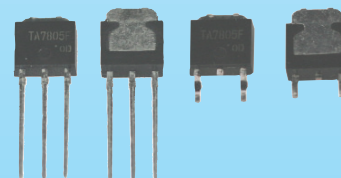

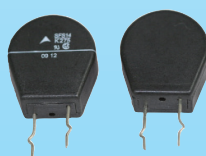

■ **Beading** of radial components

**BURST & ZICK**

**BURST & ZICK**

We offer our complete range of Crystals and LEDs to be delivered with formed leads to meet your needs.
