**DSL**

TAPING

As of now we can offer a new service, namely

TAPING

- Taping suitable for all **radial wire lead components** like Quartz Crystals, Capacitors, LEDs, Diodes , etc.
- Taping suitable for **SMD components** like Quartz Crystals, Oscillators, Tact Switches, etc.
Our taping machines are able to tape up to 800.000 components per month. We are able to tape all of your through hole (THT) and SMD components, which you are using on your automatically insertion machines (e.g. PANASERT, SIPLACE).

We are taping according your specifications and are offering following packaging versions:

- **Taped in Ammo Pack**
- **Taped on Reel**
- **Blister / Carrier Tape**

Test us. Ask for sample tapes!

P.S.: We offer our whole Quartz Crystals-Program for delivery in a Taped in Ammo Pack or Taped on Reel Version.
